## FAA ACK - BigArtsOrg at EDC: Proposed 5/(19-22)/23 laser operation near KLSV

---

**9-ATO-WSA-OSG-Lasers (FAA)** <9-ATO-WSA-OSG-Lasers@faa.gov>

Thu, Apr 27, 2023 at 11:31 AM

To: Jeff Vyduna <jeff@bigbigbig.org>

Mr. Vyduna,

This email confirms FAA notification for the terminated beam laser event shown below.

Please ensure that all of the beams are 100% terminated on a suitable surface within the venues. Local Air Traffic Control will be made aware of the activity. Please let me know if you have any questions or concerns. Thank you

Regards,

Greg Kardong

**Subject:** BigArtsOrg at EDC: Proposed 5/(19-22)/23 laser operation near KLSV

Hello Manager of the WSC Operations Support Group,

Please find attached our Form 7140 and attachments.

Please note we will terminate all beams within the venue (the Motor Speedway), however we submit this because we are within the Class B to the surface.

We are one of several laser shows operating at an event named "EDC"; it is my understanding that Forrest Hunt of EDC has had meetings with Nellis and FAA staff about all lasers operating at this venue.

Best regards,

Jeff Vyduna

Laser Safety Officer
